

Activities of Reconstructive group during 2015 – 2017

- In 2015 the group had no other meeting than that in Malmö annual meeting.

The Scandinavian urethroplasty study : **A multicentre, prospective, randomized study comparing bulbar urethroplasty with excision and primary anastomosis or with an onlay grafting procedure using buccal mucosa** started in 2016. That study is now taken care of an unofficial subgroup of reconstructive urologists handling urethroplasties. Participating hospitals are Oslo, Gothenburg and Helsinki. Örebro and Aalborg are in about to start recruiting patients.

In 2016 some members of the group ( Sairanen, Nilsen, Sander, Olsen) attended Imoru meeting in Hamburg. In that occasion a conversational meeting was held. No other meeting was held that year.

19.-20.1.2017 a meeting was held in Stockholm. Please find enclosed the meeting agenda and minutes.

In upcoming November a cystectomy course is planned to take place in Helsinki (22-23.11.2017).

Members were during 2015-2017. SWE Ralph Peeker, Lars Henningsson. NOR Ole Jacob Nilsen, Thomas Davidsson. DEN Lisbeth Salling, Lars Henning Olsen. FIN Jukka Sairanen, Ilkka Paananen. ISL Rafn Hilmarsson.

The chairman was until Stockholm meeting Jukka Sairanen. Ole Jacob Nilsen was elected to take over.

Next meeting is planned to be in Kastrup Airport, Copenhagen on 28.9.2017

Economy: Some of the participants had their travel costs and hotel expenses in Stockholm 2017 covered by NUF. The meeting dinner in Stockholm (624,33 euros) was paid by NUF.

# Nordisk urologisk förening

## COLLABORATION GROUP ON RECONSTRUCTIVE UROLOGY

Participants: Jukka Sairanen (Chair), Ole Jacob Nilsen, Ralph Peeker, Lisbeth Salling, Ilkka Paananen, Rafn Hilmarsson, Lars Henningsohn (Host), Thomas Davidsson, Lars Henning Olsen.

Meeting 19.-20.1.2017, Stockholm, Scandic Continental Hotel

### 19.1 Thursday

1200 meeting starts with lunch buffet

1230 Planning the future tasks

10 minute each, proposing a new idea of a future study. 10 minutes conversation for all

12.30 – 12.50 Jukka Sairanen: **UNC and pregnancy – affection on kidney function**

12.50 – 13.10 Ole Jacob Nilsen: **Antibiotics and urethroplasty – is it necessary with heavy antibiotics**

13.10 – 13.30 Ralph Peeker: **Descriptive study on urinary diversion procedures – redo procedures, failures with the reconstruction**

13.40 - 14 Lisbeth Salling: **KidneyTx and urinary diversions – kidney function**

14 – 14.20 Ilkka Paananen: **Neobladders and QLQC30**

14.20 – 14.40 Rafn Hilmarsson: **Prospective study on urinary diversions – complications necessitating surgical intervention**

14.40 – 15 Lars Henningsohn: **PUJ stenosis/hydrohephrosis – long term function and QoL**

15 – 15.20 Thomas Davidsson: **Best reimplantation/reconstruction of ureters – incidence of strictures**

15.20 – 15.40 Lars Henning Olsen: **Long term outcome of Mitrofanoff**

Break

16 – 17 Lotta Renström Koskela presentation of the new Karolinska Hospital

17 – 18 Free ideas, next meeting dates.

Next meeting Copenhagen 170928 “Fly in fly out”-meeting .

Spring 2018 planned 2 day meeting in Gothenburg.

Election of new vice chairman: Rafn Hilmarsson.

Chairman Jukka Sairanen turns over the chair to Ole Jacob Nilsen.

Economy discussion.

19 Sauna

21 Dinner at the Hotel (restaurant “The Market”)

### 20.1 Friday

9 – 11.30 Planning the next cystectomy course in Helsinki autumn 2017

(Divided in 3 subgroups that have an hour to think their idea of a good course)

10 – 11.00 Hearing the ideas, wrapping up them

#### **Ralphs study idea**

KBJ80 Surgery for malfunction in any kind of urinary diversion.

Study protocol needed.

No ethical committee but permission needed.

Hospital permission needed.

Participants: Gothenburg, Helsinki, Oslo and Oulu.

Possible: Copenhagen, Stockholm, Bergen, Århus.

### **Ilkkas study idea**

Ilkka wants to find out more about the 12 patients (Peter Wiklund, Stockholm, Lund and Gothenburg??)

### **Cystectomy course**

Topic: **Reconstruction of the urinary tract.**

*Tips and tricks. How do we choose the best diversion for a patient.*

*Complications and side effects, "My worst complication", pros and cons.*

*Important aspect: continuous discussion during the procedures between surgeon-moderator-audience.*

Live demo-procedures:

Extraperitoneal technique in cystectomy with diversion

Lymphadenectomy (could be a video)

Robotic surgery? Intracorporeal Studer.?

Moderator: Jukka Sairanen

Speakers = panelists, and preliminary titles:

Ralph Peeker: Indications and selections

Petter Boström: Neoadjuvant therapy

Ilmari Koskinen: Different types of surgery

Oncologist; focus PDL1 inhibitor

Thomas Davidsson: Basic technical aspects on reconstructive surgery, basic surgical thinking

Anaesthesiologist or Beata Persson?: "Fast track model"/recovery

Postoperative care: Who?

Postoperative ileus: Who?

Ilkka Paananen will consider: Studer: post-op handling, self cath, nutrition, NaBic,

Thomas Davidsson Counterpoint discussion: Bricker vs continent reservoir vs ortotopic

diversion OR continent reservoir, still an option? Audience response systems/voting could maybe be done through mobiles today.

Surgeons: Local, Jörgen Bjer. Jensen

Others: Technicians/ editors continuously

Audience: About 60 persons.

Invite all the topic-leaders in the region/Scandinavia (so we can use/ask them "How do you do in your country/hospital" during discussions)

Dates: 30/11 – 1/12 2017 (OR Wednesday-Thursday 2 full days, travels? OR Wednesday lunch to Friday lunch= 3 days off work)

**Discussion:** Topic of the course: Should focus on how we do a reconstruction in the best possible way for the individual patient. Not on the diagnosis/reason for the cystectomy.

Patient consultations. Lisbeth Salling.

11 – 11.30 Adjourn, final marks

11.30 Lunch

Notes by Lars Henningsohn
